Colorado Mesa University – Tomlinson Library

Grand Junction, CO

Checkout & Reserves Desk Attendant

June 2023 – Present

- Manage the circulation of books and campus assets, including checking materials in and out using the library system.
- Provide front-line customer service by assisting students, faculty, and visitors with general inquiries.
- Coordinate study room reservations and ensure proper usage of library spaces.

Colorado Mesa University – Athletics Department

Grand Junction, CO

Student Assistant

June 2021 – Present

- Support athletic department staff with daily administrative tasks and event preparation.
- Handle incoming calls and route them to the appropriate departments.
- Serve as a point of contact for students and visitors, providing accurate and timely information.

EDUCATION

Colorado Mesa University

Grand Junction, CO

Bachelor of Science, Computer Science

08/2019 - 12/2025

PROJECTS

MavAquatics Web Application

Grand Junction, CO

Spring 2025

- Developed a role-based web application for MavAquatics, a swim club operated by Colorado Mesa University, as part of a semester-long software engineering project. The platform allows coaches and swimmers to manage practice schedules, track attendance, post event updates, and view personal swim records through dedicated dashboards.
- The application is currently under development. You can view the source code on GitHub at **MavAquatics** or visit my personal website for more information and screenshots: **mslazzuri@GitHub**.

SeccoTruco Web Application

Remote

2025

- Designed and developed a responsive web application to support gameplay for *Truco*, a popular Brazilian card game. Built with HTML, CSS, and JavaScript, the site helps players track scores and visualize special card hierarchies.
- Hosted at **seccotruco.com**. Source code available at **truco_counter@GitHub**.
